

VIKTORIIA PRISNA

Junior Full-Stack Web Developer · Front-End · Web Maintenance · SEO

San Diego, California | (619) 560-6768 | vika.cn.92@gmail.com
Portfolio: dreamwallsstudioca.github.io/viktorii-prisna-portfolio-2026/

PROFESSIONAL PROFILE

Junior Full-Stack Web Developer with 2+ years of hands-on experience across business, academic, and portfolio projects. Builds and maintains responsive websites, React-based applications, e-commerce workflows, and practical business web systems using modern front-end technologies, PHP/MySQL, OpenCart, and WordPress. Strong focus on web maintenance, debugging, SEO fundamentals, structured data, accessibility, performance, deployment, and user-facing business workflows. Brings 10 years of prior financial and operational leadership experience, including large-team management, budgeting, reporting, process design, and cross-functional operations.

PROFESSIONAL EXPERIENCE

Web Developer & Digital Operations | Dream Walls Studio

2024 - Present | San Diego, California / Remote

- Develop and maintain a live service-business website, including responsive pages, service content, lead/contact flows, structured data, technical SEO improvements, and ongoing front-end/content updates.
- Translate real business needs into website features, digital customer workflows, quote processes, usability improvements, and maintenance tasks.
- Use Git/GitHub workflows, browser testing, deployment tools, responsive QA, and iterative debugging to maintain stable customer-facing interfaces.
- Build and test business-oriented web applications and e-commerce workflows using React, JavaScript, PHP/MySQL concepts, OpenCart, and payment-integration concepts.

Financial Manager / General Manager / Financial Director | International Company

2012 - 2022

- Progressed through financial and operational leadership roles with responsibility for budgeting, cash-flow control, internal reporting, financial controls, and day-to-day business operations.
- Managed large teams: hiring, onboarding, training, scheduling, performance coordination, delegation, and cross-functional communication.
- Led process improvement, KPI/reporting systems, operational planning, vendor coordination, project launches, and execution across multiple business functions.
- Combined financial analysis with people leadership and operational decision-making in a fast-paced international business environment.

CORE TECHNICAL STACK
